ORACLE NETSUITE

CATALYST ERP DISTILLERY SUITE

Getting a distillery off the ground means juggling production, maturing stock, duty compliance and sales – often across spreadsheets and disconnected tools. **Bottle ERP Starter Edition** brings it all together in one straightforward platform built for new and growing distilleries. Built on **Oracle NetSuite** and enhanced with distillery functionality from Catalyst ERP, it gives smaller producers the core tools to track spirit, stay compliant and sell with confidence – without the complexity or cost of a full enterprise system.

## 01 DESIGNED FOR

Built for new and growing distilleries that need the core essentials – tracking spirit, staying compliant and managing sales – without enterprise complexity.

🔑 New & growing craft distilleries

🏠 Single-site production

📦 Growing maturation stock

📄 Teams replacing spreadsheets

📋 Producers needing duty compliance

➔ A platform that scales as you grow

## 02 A SINGLE PLATFORM

Starter Edition brings your core distillery operations into one connected platform – so production, stock, duty and sales all share the same accurate data from day one.

### WHAT THIS ENABLES

- ◆ Clear visibility of spirit & cask stock
- ◆ Accurate LPA & duty compliance
- ◆ Simple, repeatable production workflows
- ◆ Confident sales of bottles & casks
- ◆ One source of truth, no spreadsheets

The result is a calmer, more controlled distillery – every stage connected in one platform that's quick to adopt and ready to grow with you onto higher editions when you need more.

CAPABILITIES **EVERYTHING YOU NEED TO GET STARTED**

**PRODUCTION**

Core manufacturing tools to take spirit from still to bottle with simple, repeatable workflows.

- Single-stage spirit production
- Bottling operations
- Regauge workflows
- Sampling
- Vatting
- Liquid transfers between vessels

**LABELS & DOCUMENTS**

Generate the labels and branded paperwork your distillery needs, ready to print straight from the system.

- Lot, bin & item label generation
- Fixed asset labels & pre-print
- Invoices, credit memos & statements
- Packing slips & picking tickets
- Sales acknowledgements & remittances
- Commercial invoices & bills of material

**COMPLIANCE & EXCISE**

Built-in LPA tracking and duty management so you stay on the right side of HMRC from day one.

- LPA in / out & in-transit tracking
- LPA gain & loss monitoring
- Estimated & actual duty calculations
- W5 & W5D reporting
- Lot margin reporting
- Lot, serial & finished-goods tracking

**INVENTORY & CASK**

Keep track of every cask and vessel as your maturing stock grows, across more than one location.

- Multi-location inventory management
- Wood & cask tracking
- Fixed asset management
- Sample stock management
- Lot-tracked & component items
- Finished-goods tracking

**BUYING & SELLING**

Manage purchasing and sales across bottles, casks and bulk liquid in one place.

- Finished bottle sales
- Empty & filled cask sales
- Purchase components & vessels
- Buy filled vessels & bulk liquid
- Integrated credit control
- Till & finished-goods stock

**INSIGHT & GUIDANCE**

Understand your maturing stock and learn the system fast with built-in guidance and clean data.

- Predicted angel share & value
- Lot margin reporting
- Data quality management
- Step-by-step process videos
- Process diagrams & guides
- Multi-currency, units & price levels

**CONFIGURABLE TO YOU**

- 5 custom fields
- 5 currencies
- 3 units of measure
- 3 price levels
- Branded PDF document set

PLATFORM CAPACITY – RIGHT-SIZED FOR A GROWING DISTILLERY
